Road map	8

Sports and gambling have been around for decades and are loved by people. And that will continue forever. However, the underlying problems that limit the market are hampering its growth.

The problem can be solved by using it in a unique and sophisticated way of blockchain technology.

As this market has rapidly evolved with various technological revolutions in recent years, as an online gaming operator, we are trying every way to survive.

The traditional online gaming operating model is not transparent and direct, and quick exchange of funds is impossible.

However, blockchain technology has made it possible to solve various problems. In addition, our TOKEN has been developed to enhance transparency and security in tangible transactions.

This TOKEN can solve various obstacles that can occur in legal currency, such as fees, legal problems caused by residence, and can realize added value unique to the platform.

In addition, the superior processing power and security of the blockchain technology will support the stable and smooth operation of the platform without delay.

We intend to build our own online gaming platform using this TOKEN and realize our plan.

We leverage our groundbreaking ideas and experience to deliver advanced features.

We believe that our challenge to expand this market scale will make our world better.

What is "BOSSC"?

"BOSSC" stands for Blockchain Online Sports Service coin.

This is one of the currencies that can be exchanged on any platform and is used as a bet on BETTING ONLINE, and in some cases It plays the role of bringing more benefits to you.

Smart contracts in blockchain technology make it safer, faster and more reliable than traditional tangible transactions. As a result, you can dramatically reduce the trouble that bothers you.

Until blockchain technology became pervasive, tangible transactions online only had to use fiat currency, and in the case of online gaming, in particular, we were concerned about opaque deals and spent a lot of time reflecting the amount.

However, the cryptocurrency is used as a means of payment, and this problem is solved, and the global online gaming market continues to grow beyond the limit.

And this market goes on to the next stage.

A cryptocurrency designed for an individual sports betting platform and seeking convenience only for its medium is beginning to emerge in the world.

BOSSC is prepared for individual platforms, it does not have to be bothered with the process and expense of exchange for various other cryptocurrencies, and platforms using BOSSC can set their own added value.

In addition, the ERC20 standard smart contract will help achieve that specification.

For example, BETTING ONLINE is a sports betting site, and it is a must for users who can not enjoy gaming satisfactorily in their place of residence due to legal issues.

What we are trying to say is "BOSSC" is one of the ways to make that sports betting most comfortable.

Sports betting market analysis

The overall size of the sports betting market is estimated to be 250 billion USD.

It is expected to reach approximately 370 billion USD in 2022 and steadily grow at a CAGR of 9% by 2024.

According to Statistica, a highly reputable statistics site, online sports betting with the appropriate license accounts for more than 39.7 billion USD of this income.

Our attempt is the development and circulation of TOKEN adapted to each platform, and we add TOKEN with unique added value.

In other words, people who use this market are potential customers of BOSSC.

As a result of researching the current online sports betting market, we aim to enter into 1% of the market's business.

Our attempts bring additional benefits to both the market and us.

That is, according to our survey, it is more than 400 million USD every year.

Therefore, we started our trying, as this market has more certainty of growth than any others.

Sports betting site

There is a lot of entertainment for people, but sports have been around our lives for over 30,000 years.

Our team focuses on this sport and blockchain technology and use it well to provide sports betting that is available anytime and anywhere.

We create cutting-edge IT solution that allows people to enjoy betting online about sporting events and favourite games.

Our goal is to provide a safe, secure environment that is accessible to people around the world enjoy this gaming.

As a result of our efforts in market analysis, programming and technology development, **BETTING ONLINE** has become a revolutionary and exciting site at online sports betting.

IEO – BOSSC

(Initial exchange offering)

BOSSC chooses the IEO funding method to overcome the rapidly growing market competition.

Debt and equity financing methods are at present risk and require a lot of time and money.

By choosing IEO instead of those means, we will make funding faster and less risky.

All funds obtained from this IEO will be used only for the realization of our plan.

We plan to do the following to conduct this IEO of BOSSC.

Status

Price of token: 1 USD

Token to be issued: ERC20

Token bonus: At most 66%

20 Jun 2019 - 15 July 2019 (USD 0.6 per 1BOSSC)

16 July 2019 - 31 July 2019 (USD 0.8 per 1BOSSC)

Exchangeable currency: BTC / ETH / others

IEO period: JUN, 20 - JUL, 30

Developer: SPLINE PTE LTD

We also plan to list BOSSC on the Bell Wood Exchange, a cryptocurrency exchange based in Malta.

In addition, We will expand our business, with the aim that this token will be used in exchanges around the world.

Buying BOSSC through this initial exchange offering gives you the opportunity to get more BOSSC at a favourable rate than buying it on the market in the standard period.

2019

BOSSC TOKEN

2,000,000,000 BOSSC

JUN, 20

We thought that without a token with a stable price, we could not assure convenience or transparency when using currency exchange method at an online gaming platform, and we could not provide a reliable service.

Therefore, after detailed market analysis, we set the number of tokens issued, which is the most important from the viewpoint of supply and demand, to 2 billion.

IEO

JUN, 20

We have started IEO and will list our tokens on the BELLWOOD HL Exchange, Crypto Engine, and OrionZ Swap and other exchanges around the world.

We will issue, and appeal 50% of the token issue volume to investors worldwide and potential customers of online gaming in this IEO period.

FIRST LAUNCH SALE

JUN, 20 - JUL, 15

We commemorate the issue of BOSSC and Listing on an exchange, carry out special sales on each exchange at a price lower than the listed price.

Start Operation

JUL, 30

We add live features to our unique online casino platform and provide real-time delivery of various card games, including Blackjack.

In addition, we start operation the official version and aim to further expand the business scale by supporting many languages, so that provide services to the whole world.

6

Listed on the Exchange
JUN, 20

BOSSC will first be listed on the BELL WOOD HL Exchange, Crypto Engine, and OrionZ Swap and other exchanges around the world.

7

SECOND LAUNCH

SALE JUL, 15 - JUL, 30

We intend to list BOSSC on several leading exchanges to make BOSSC a token specializing in the convenience of exchanging for any cryptocurrency.

8

Start β Version

JUL, 20

We will start operating the beta version of our online casino platform.

It is intended to implement 18 types of slot games, 5 types of jackpot games and other typical table games for those who own BOSSC during the IEO period.

We have built a special team to solve the various issues that may arise towards this attempt, and we are ready to quickly resolve any issues.
